6 strategies was defined
4 strategies was implemented
2 strategies was executed

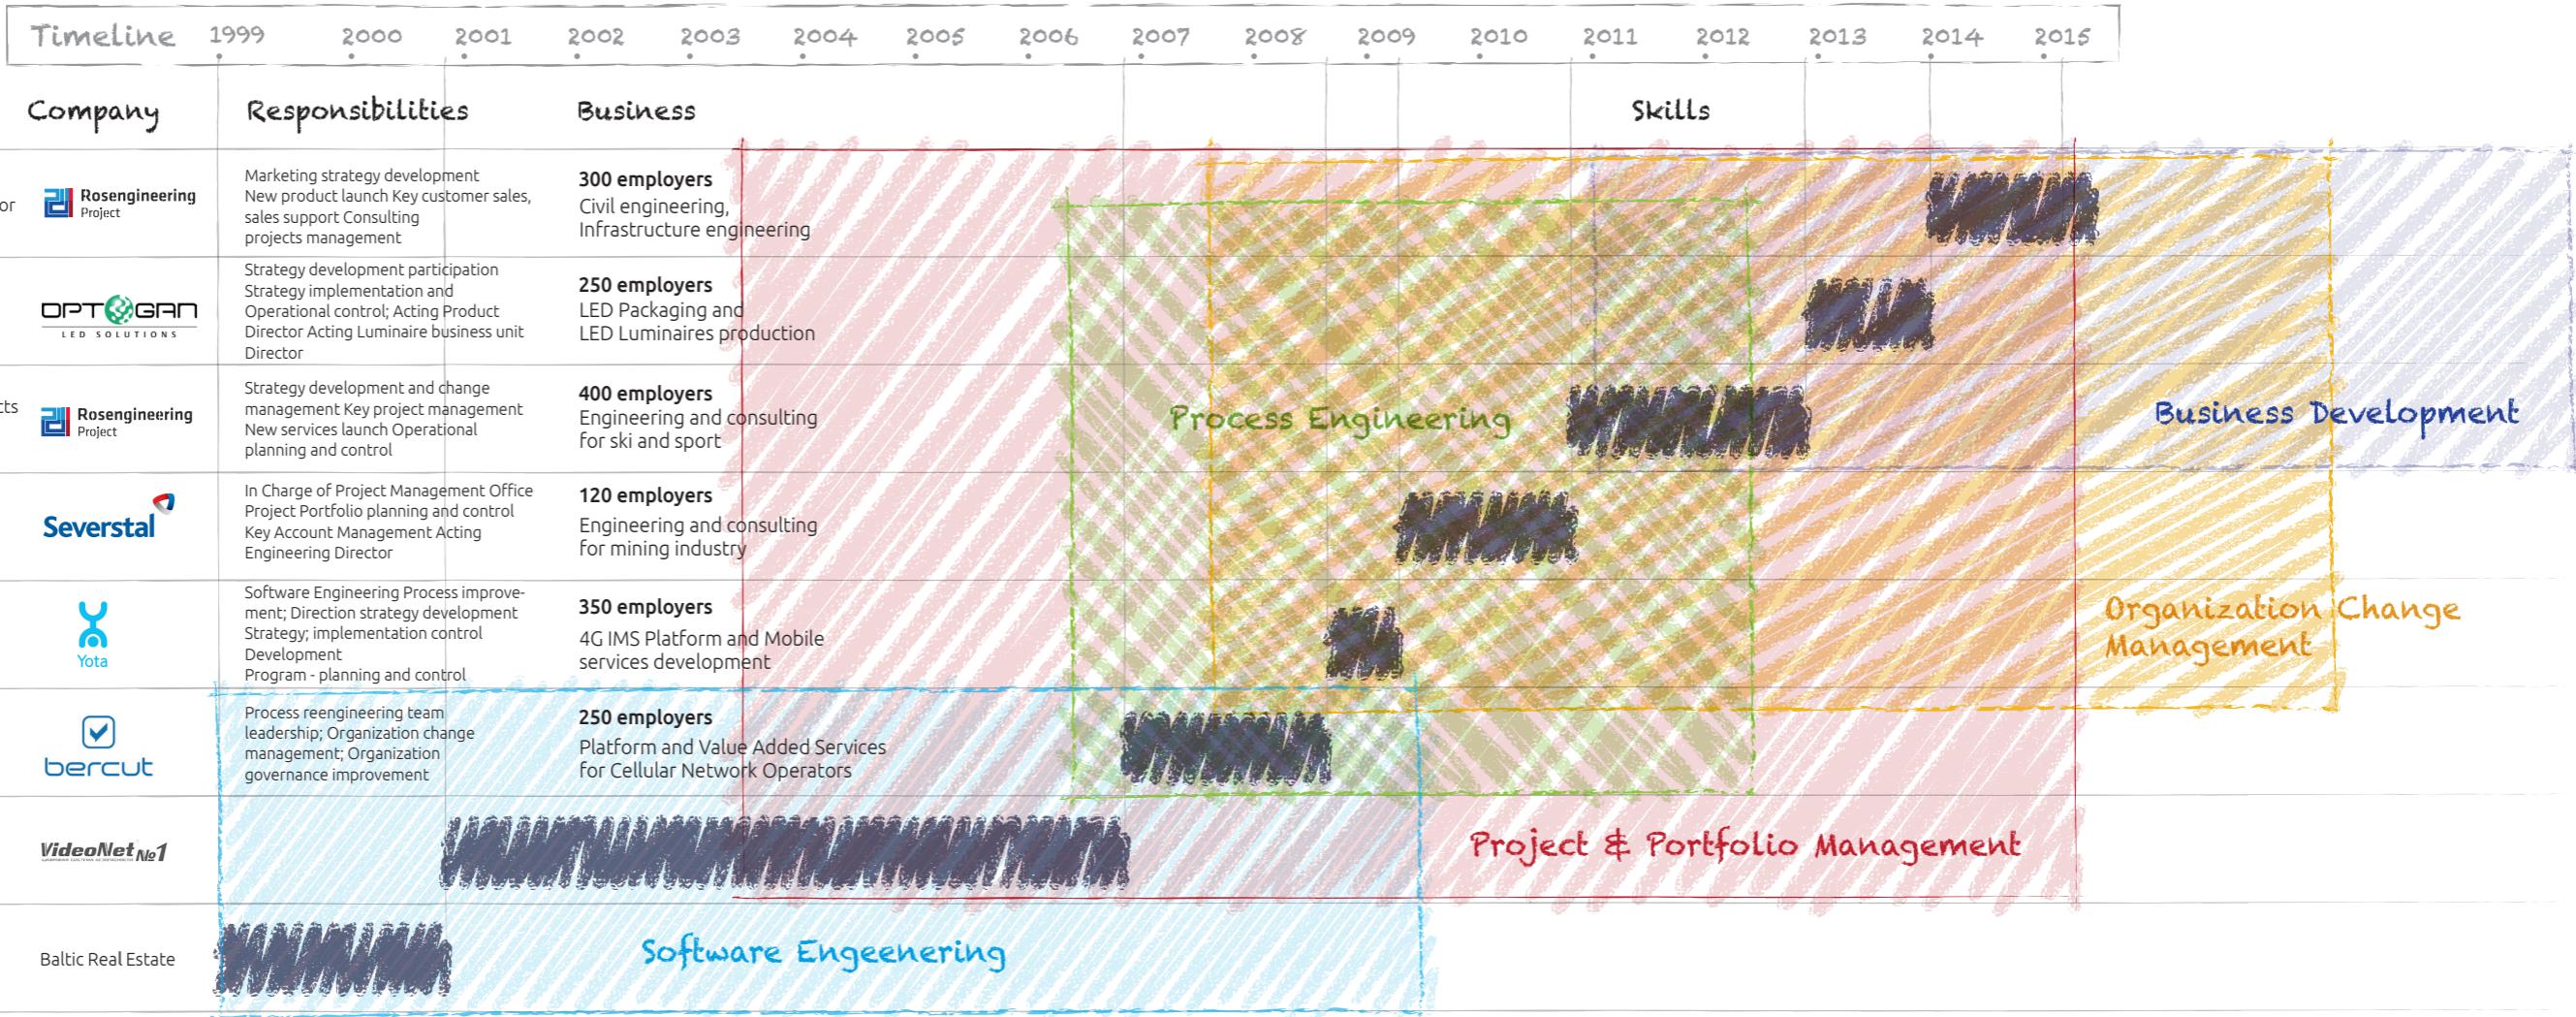

Up to **250 of direct** subordinate employees
 Up to **400 of indirect** subordinate employees
 Experience of team creation and transformation
 Management of distributed and intercompany teams

Skills & Experience

10 years of Program, Project and Portfolio Management
7 years of Organizational Change Management
8 years of Quality Management and Business Process Reengineering
5 years of Financial Management
3 years of Marketing and Sales

Production process areas
10 years of Software Engineering Production
5 years of Civil and Industrial Engineering Production
2 years of Conceptual Design and Business Planning Production

Education

2002 - 2005 postgraduate course

Saint-Petersburg State University,
 Applied Mathematics and Control
 Theory Faculty, Computer science
 department

1997 - 2002 MA in mathematics

Saint-Petersburg State University,
 Applied Mathematics and Control
 Theory Faculty, Computer science
 department

Qualifications

- 2015 Mining Massive Data sets, Stanford University
- 2012 Team management and Leadership, Corporate education program
- 2010 Project Portfolio Management, PM University
- 2008 Project management on ANSI PMI PMBOK® 4rd Edition, PM Expert
- 2006 Project Estimation, Carnegie Mellon/ TEKAMA
- 2006 Process and lifecycle of software engineering, RUSSEE (TEKAMA)
- 2006 Human factor in software engineering, RUSSEE (TEKAMA)
- 2005 Negotiation technology, Stockholm School of Economics
- 2005 Visual modeling, UML, OOA, IBM Rational Rose, ITAcademy

Software Engineering

Real-time video multicast, storage and management platform
 Security systems integration (hardware and software levels)
 Internet license management system (strong cryptography of commercial data)
 Real estate knowledge management system based on object orientated database

Process Engineering

Videonet, Rosengineering Projects, Severstal:
Engineering methodology has been defined and certified on ISO 9000
 Videonet, Beruct, Yota: software engineering processes have been reengineered
 Yota, Rosengineering Projects, OptoGaN: processes map has been developed

Project & Portfolio Management

Rosengineering Projects, Severstal: **Project Management Office has been launched**
 Rosengineering Projects, Severstal: Large engineering project management methodology has been developed
 Rosengineering Projects, Yota, Severstal: Portfolio Management has been launched
 3 Programs have been executed

Organization Change Management

Rosengineering Projects, OptoGaN, Severstal, Yota: New Strategies have been defined and implemented
 Rosengineering Projects, , Yota: New organization structure has been implemented
 OptoGaN: 25% costs saved, capacity improvement has been designed
 Rosengineering Projects, Severstal: **Company financial goals have been archived**

Business Development

Rosengineering Projects: **New services have been launched** (Pre-Feasibility Analyses, Investment Project Management)
 OptoGaN Product marketing and product management structure has been developed
 Rosengineering Projects: New Marketing strategy has been defined
